

# Annual Breast Cancer Conference

Experience the human side of medicine.

We believe the best possible outcomes occur when the woman is at the center of our breast cancer care. We invite you to go behind the scenes to learn how experts, including a genetic counselor, oncology specialists, plastic surgeons and more, work together to address the most challenging cases and develop a plan to meet each woman's unique needs.

## Join the discussion.

We will share the latest reconstruction options we offer to women. You'll also find out why it's critical to have a team of experts focused solely on you. One of the special advantages Northern Westchester Hospital brings to the table.

## What's on the agenda?

- The Evolution of Reconstruction for Breast Conserving Surgery - David Palaia, MD.
- Optimizing Mastectomy Reconstruction with Microvascular Surgery - Julie Vasile, MD, FACS.
- Simulated Tumor Board  
Witness cancer specialists and clinicians collaborate to develop a treatment plan for a patient. A unique and fascinating experience specifically designed for the lay audience.

## FREE to our community

Friday, October 27th

10:45am - 1:00pm

Chappaqua Crossing

Chappaqua Performing Arts Center  
(Formerly the Wallace Auditorium)

480 Bedford Road, Chappaqua, NY
